Just wait until after the conference call.

Hi Rich,

In lieu of the e-mail regarding the conference call...do you still want us to work on summarizing the data we have access to right now? Or do you want us to wait until after the conference call. I would guess that it will be difficult to get someone to work on it over the weekend (due to the lack of lead time and the fact that it is a holiday weekend). However, if you require it I can work on the data on Monday (which I plan on working on Dimock project anyway).

Just let me know.

Thanks,

Suddha Graves

Suddah,

We are still grappling with getting all the data up on the EPA Web Page. I am not sure just how much got uploaded this afternoon. The share drive has over 1GB and there is concern whether the web page can take that or not. I will be working on this first thing on Tuesday.

In the mean time, if you guys can proceed with what you have access too right now, I would like the maximum exceedences by resident, starting with the list I sent in the email.

Work this weekend is authorized for data management and other work Rich R. needs on the sampling plan.

Thanks, Rich
